ITALIAN TRANSLATOR GOOFS

SWISS-ITALIAN RELATIONS STRAINED

GENEVA (DWB) This journal's Italian translator, one George Koning, inadvertently translated part of our report on this Fall's Italian Fleet movements incorrectly, causing consternation among journalists and admiralty alike. As Italian Admiral Paleol put it, "Our moves were obviously co-ordinated with the Austrian's, and aside from buggering up our whole game this makes me look like a military idiot!" We apologize deeply to all parties concerned, including editor John Smythe, and print below the "Fall 1910" moves as they should have occurred. All deadlines are postponed one week.
